

# Cybersecurity - Multi Factor Authentication(MFA)

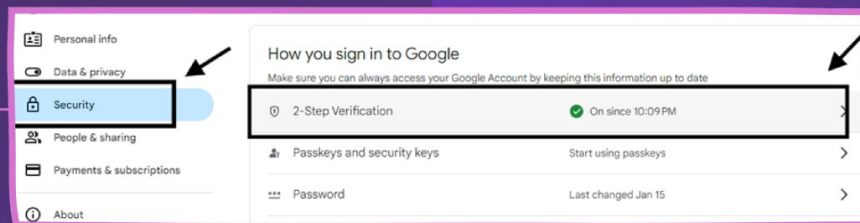

## MULTI-FACTOR AUTHENTICATION (MFA)

### WHAT IS MFA?

MFA is an extra layer of security used to ensure that people trying to gain access to an account are who they say they are.

1 Open your Google account.

2 In the navigation panel, select Security. Under "How you sign in to Google," select 2-Step Verification > Get started

3 Select to turn on the 2-Step Verification and choose what authentication you want to use.
