Get the password to access ICT facilities such as WiFi, i-Ta'leem, i-Ma'luum, etc.

You need to activate the temporary pin number that was given to you when you enrolled/registered. You can activate your pin number at the following website:

For Undergraduate   – http://prereg.iium.edu.my/pinno

In the activation process, you have to set your own personal password. For PG students, you have to update your biodata first before activating your pin number. You can update your biodata at the following website:

http://myapps.iium.edu.my/anr/pgbio

Students' matric numbers and activated pin numbers will be used to access most of the systems and applications in IIUM. Therefore, the first thing that you must do is to activate your temporary pin numbers.
