

README FIRST: Updates On MYREPO

Improvement: June 2022

- MyRepo has recently upgraded its system as a necessary preparation for future integrations and more straightforward upgrades and maintenance.
- We take note of your recent feedback and have successfully implemented most of the said improvements.
- As of now, the user manual may not reflect the entirety of the User Interface since the UI/UX has been changed with the upgrade, though the entire looks and feels are mostly the same.
- The updated manual is expected to be completed by the end of this month, Insya Allah.
- However, we have included a tooltip represented by the following image as a quick manual to help with the transition.

- Clicking on the tooltip should display relevant information and guides on how to use the system
- If you encounter any problems, feel free to email me at fathularif@iium.edu.my. Thank you.

Revision #2
